

Need for Prayer and Revival

The Resolution Committee presented one resolution stating, in effect, that in view of the critical conditions of the present hour, all issues and proposed remedies assumed an aspect of insignificance in comparison with the need for revival, and calling upon the Association and all of the churches and Christians generally, to give themselves to the exercise of earnest prayer. No vote was called for on the resolution, but those favoring it were asked to indicate their approval by remaining for a season of prayer after the public sessions that night and the next.
